Re: Preservation of the LAPD Beach Detail in Pacific Palisades

Dear Mayor Garcetti and Councilmember Bonin,

We are concerned that the LAPD Beach Detail may be reassigned away from Pacific Palisades because of LAPD budget cuts. The Pacific Palisades Taskforce on Homelessness (PPTFH) requests that the City continue funding for the Beach Detail (two officers). Without law enforcement along our coast and hillsides, there will be a surge in homeless camps on the beach and brush-filled areas. Based upon conditions we encountered when PPTFH formed, the loss of the Beach Detail will result in more incidents of crime, including arson and illegal campfires that threaten our VHFSZ community members which includes those with homes and those experiencing homelessness. There will also be increased cases of assault, theft and illegal drug use which have been significantly reduced due to the Palisades Beach Detail. The partnership between PPTFH and the LAPD Beach Detail has proven to be a cost-effective use of City resources and it should continue.

Since 2016, the LAPD Beach Detail has partnered with our Task Force and kept our community safe and has helped our homeless individuals receive compassionate, cost-effective services with access to permanent supportive housing. The following results have been achieved due to the partnership between PPTFH and the LAPD Beach Detail:

- No hillside camps. *Prior to 2016, there were 163 camps, and two brush fires started in populated hillside camps which endangered homes.*
- No permanent tents along the coastline, reducing crime on our beaches and in our neighborhoods. *Prior to 2016 there were clusters of tents and an increase of crime in our community.*
- Vehicle dwelling laws have been enforced. *Prior to 2016, these laws were not enforced.*
- 132 previously homeless individuals are off the streets and sheltered.
- 85 previously homeless individuals have been permanently housed.
- 71% reduction in the number of local homeless individuals, per the 2020 LAHSA annual homeless count.

The LAPD Beach Detail fills a service and protection gap by providing critical assistance in areas not covered by LAFD, County Lifeguards, Beaches and Harbors, RAP and State Park officials on safety, crime, and drug-related issues.

In 2019, PPTFH purchased an off-road vehicle and donated it to the LAPD Beach Detail. This vehicle is

used to patrol our fire-prone hillsides in posted fire-restricted areas in RAP and State Park lands where LAPD has jurisdiction. It is also used to transport our community funded outreach workers from The People Concern so they can engage homeless individuals who would otherwise be unreachable. The Beach Detail also prevents fires in these dense areas by alerting our first responder team to remove abandoned fire materials and encampment trash. Without the LAPD Beach Detail, PPTFH's volunteers could not access these hillside areas due to the dangerous conditions, and the hillsides could become repopulated with homeless camps—increasing the threat of fire from camps. If the LAPD Beach Detail is cut from LAPD funding, our work will suffer in helping and protecting our homeless people in these areas as well as our community.

Please continue to fund the LAPD Beach Detail so we can continue our successful and effective work in Pacific Palisades.

Sincerely,

Sharon Browning, Co-Chair PPTFH

Sharon Kilbride, Co-Chair PPTFH
